April

- Conduct Eighth TSA Chapter meeting
- Attend TSA State Championship Conference
- Inform State Advisor of Intent to compete at the Natioanl Conference
- Begin discussions and getting confirmations about attending the National Conference
- Register for National TSA Conference

May/June

- Conduct Ninth TSA Chapter meeting
- Hold parent meeting with details about the National Conference
- Incorporate feedback from Nationals for your project
- Practice, Practice, Practice, Practice for Nationals
- Newly Elected Officers Attend Training

TSA Plan of Work

WHAT? The Plan of Work is a plan of activities an organization wants to accomplish during the year. Most chapters will have a planning meeting at the beginning of the school year to plan out their chapter events for the year.

WHY? The Plan of work should relate to the mission and goals of TSA and meet the educational objectives of the Health Science clusters. A well-balanced Plan of Work involves members in a variety of experiences designed to meet their needs, as well as the needs of the organization, local chapters, and the community.

HOW? As the Plan of work is initiated by members, it is important to have buy-in from the start of your members. Remember things may be added and removed as the year goes on, but a Plan of work gives your group an outline of the things they would like to accomplish.

A Plan of Work might look something like this:

August/September • Organize first meeting • Election/installation of officers • Develop Plan of Work to determine what activities the chapter will be involved in	**October** • TSA Fall Leadership Workshop • Float in homecoming parade • Guest speaker at chapter meeting	**November** • Sponsor a family at Thanksgiving • Donate food and/or your time to a local food drive
December • Toys for Tots collection • Visit a nursing home • STEM Activity with Elementary students • Fundraising for TSA National Service Project • Have students apply for State Officer Candidacy	**January** • Work with and encourage students to practice/study for competitive events • Begin confirming State Championship Conference (SCC) Attendees & Competitive events selections • Attend Regional Championship Conferences if available	**February** • CTE Month in Missouri • TSA Advisor Appreciation Week (1st week of February) • Hold a Parent meeting RE: SCC details and forms that need to be completed for all attendees, yourself, parents, bus drivers, etc.
March • Submit Chapter Assurance Forms for SCC (State Championship Conference) • Review Rubrics, and practice, and practice for your events • Spread the word about the upcoming SCC through school intercom, website, and social media	**April** • Attend TSA State Championship Conference • Inform State Advisor of Intent to Compete at Nationals after SCC • Prepare and confirm about attending National Conference • Register for the National TSA Conference	**May/June** • Hold parent meeting with details about the National Conference • Get feedback on your project to prepare for the National TSA Conference and practice, practice, practice • Attend the TSA National Conference • Newly Elected Officers attend State Officer Training

TSA Achievement Program

TSA Achievement Program
https://tsaweb.org/programs/tsa-achievement-program

The TSA Achievement Program, Pathways to Excellence promotes service, leadership, STEM immersion, and personal/professional development in middle school and high school members through their involvement in STEM-based activities.

Specifically, the program aims to:

- engage members at the local, state, and national levels
- facilitate opportunities for members to use and expand their knowledge and skills of technology and engineering education
- recognize the efforts of members to attain bronze, silver, and gold level awards

ENROLLMENT AND LEVELS:

All affiliated members of TSA have access to/are enrolled in the TSA Achievement Program. The award program consists of three levels of achievement: Bronze, Silver, and Gold.

TSA chapter members engage in activities – in the categories of service, leadership, STEM immersion, and personal/professional development – to earn, in sequence, bronze, silver, and gold level awards.

Members submit documentation of their activities for each level via the TSA Student Member Site.

CATEGORIES:

Service Leadership:

TSA Service Leadership activities are designed to help members develop abilities in planning, promoting, and completing projects that help their communities. They encourage members to grow as future leaders through fundraising, volunteering, networking, and other community service endeavors.

STEM Immersion

TSA STEM Immersion activities aim to expose members to contemporary topics in science, technology, engineering, arts, and mathematics. They enable members to gain real-world experience in various disciplines to help them explore their interests outside of the classroom.

Personal/Professional Development:

TSA Personal/Professional Development activities help members set goals, learn about their roles in a technology-oriented society, and become prepared for the workforce. These activities encourage members to reflect on their interests to make wise personal decisions about selecting and preparing for a career.

REQUIREMENTS

1) Affiliated members of TSA have access to/are enrolled in the TSA Achievement Program.
2) Members work to achieve bronze, silver, and gold level awards in the program; awards are earned in sequence.
3) To attain the awards, members must successfully engage in the required number of activities at each level:
    a) Bronze award: The member must complete one activity in each of the three categories in the bronze level, for a total of three activities.
    b) Silver award: The member must complete one activity in each of the three categories in the silver level, for a total of three activities.
    c) Gold award: The member must complete one activity in each of the three categories in the gold level, for a total of three activities.
